Quantum Kata 1 Report - Jack Crawford

Name of Kata: Complex Arithmetic

URL for Fork: github.com/jack-crawford/QuantumKatas

How long it took to complete: 1 Hour

Challenging Stuff: Everything Polar and Cartesian gave me a hard time, I don't have much experience with those things, and certainly not recently, so they took me a long while.

Comments: While challenging, I thought this was really engaging and educational! I look forward to doing more of these Katas.
